### Industrial Visit to EMC – DELL Technologies

On the 04<sup>th</sup> October 2017, the department of computer science and engineering had organized an industrial visit for sixty eight students of the seventh semester CSE who were accompanied by two of the faculties of the department. The visit was to the DELL EMC, Bagmane Techpark, Mahadevpura, Bangalore.

The visit started at around 9.00 Am from our college campus. We reached the DELL EMC campus at 10.00 Am in our college bus. The group was received by Ms. Prabha Mohan Executive briefing advisor Dell EMC. and directed us to a cloud experience center where Mr. Abhijit Sreenivas. External Research & Academic Alliances Dell EMC gave a presentation about Dell EMC and their technologies. He also encouraged our students to do various Dell EMC Certified courses. Later Mr. Jose Zacharia Senior Manager Executive briefing advisor Dell EMC gave briefing about evolution of storage system and different components of data center.

After the presentation the students were taken to data center tour as a batch of 7 to 10 students by data center technicians. The data center was huge, where the storage and servers are arranged in racks and bays. The students were able to relate the storage arrays, the physical device in the data center with the theoretical knowledge. There were different servers like Sun-Oracle, IBM, Cisco installed in data center. Mobile monitoring was used to check and debug errors in the hardware at the server or storage side.

After the Data center visit, the students boarded the bus to come back to college.

We express our thanks to the Management, Principal, Vice Principal and Head of the Departments, for permitting and arranging the industrial visit,
