

"Report on CSR workshop "Basics of Electronics and communication"

CSR program was organized by Department of Electronics and communication Engineering, co-ordinated by Mrs. KAVITHA.D on 24.1.2018. The 1st and 2nd year students of Government PU College, Kadugodi had participated in the workshop.

The workshop began at 9:30 am with an inauguration function in Seminar Hall 4 attended by Principal Dr. N Gunasekaran, Vice Principal Prof. M. Brindha, HOD ECE Dr. I Hameem Shanavas, faculty members 46 participants and 2 faculties of PUGovernment College.

By 10:00 am the presenters took over. The theory session was handled by Ms. Kavitha D on the basics of Analog Electronics which was followed by Ms. Swetha Patil on Digital Electronics. The participants were then taken for a campus tour after which they dispersed for lunch.

Post lunch practical sessions were conducted by dividing the participants into two batches. In the labs (NI LabVIEW, Robotics and Automation, Analog Electronics, Digital Electronics, Power Electronics and Microprocessor and Microcontroller Lab) the participants were given hands on session of various Electronic instruments and how to handle them.

The valedictory session began at 3:00 pm where the participants shared their experience about the workshop after which books and certificates were distributed to the participants.

We expressed our gratitude to the Management, Principal, Vice-Principal and Heads of Department for arranging the CSR and the faculty members for being supportive.

Outcomes:

1. The PU Students gained the basic knowledge about Electronics
2. Introduced to labs.
3. Importance of working in electronics through Engineering.
