    Innovative Compskey, was proud to host this event for all the students. The event
Capture The Flag 3.0 was ultimate test for mental ability for riddle cracking and strength of
programming foundations consisted of 2 rounds which was played as individual or a group of
members maximum of 4.

    Both the rounds of the event were conducted on 28 Jan 2023 in Computer Science and
Engineering Department. It started at 10:30 AM and ended at 1:00 PM.

Mr. Naveen N (Technical lead, Singapore infotech pvt.ltd), judged the event which was
coordinated by Event Coordinator Mr. Vinay Raj sir, 296 Students from 84 teams participated
for the event.

Round 1 (Qualifying Round):
    Find the bot: In this round, all the participants were waved off from the department
giving them riddles which led them to their first bot. Every bot had a riddle in the form of
QR which tells the location of the bot following them. The last bot (bot 4) had the riddle
question in form of QR which was a problem whose solution was to be coded. Once the
participants reached bot 4, they were directed to the department and allowed to code for
the given problem. A duration of 10 mins was given for each team to solve the question as
a qualifying task. The time of submission was noted down and the codes were evaluated.
The teams who submitted earliest with correct logic for the problem were selected to the
second round.

Round 2 (Final Round):
    Rapid fire: The final round of thus even was a "Rapid Fire" where top 30 teams who
were qualified from round 1 were asked a set of questions from basic concepts of
computers in a rapid fire where the team that buzzed first were given a chance to answer.
Every right answer was awarded with 10 points and wrong answer was awarded with -5. The top
2 teams to score the highest were declared winner and runner-up respectively.
