

MVJ College of Engineering, Bengaluru

(An Autonomous Institute)

Affiliated to VTU, Belagavi

Approved by AICTE, New Delhi

Recognised by UGC with 2(f) & 12 (B)

Accredited by NBA & NAAC

Karnataka-Uttarakhand Companionship
(Organized by EBSB Cell & IQAC, MVJCE)

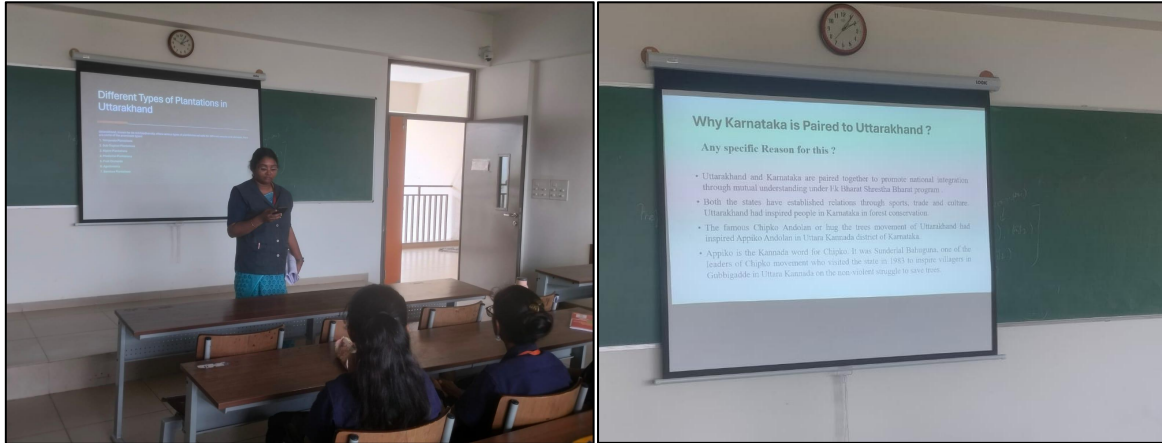

The Ek Bharat Shreshth Bharat initiative is a cultural exchange program launched by the Government of India with the aim of promoting a deeper understanding and appreciation of the rich cultural diversity that exists across the country. The phrase "Ek Bharat Shreshth Bharat" translates to "One India, Best India," and the initiative seeks to foster a sense of unity and national integration among the people of India.

A similar **Activity on "Plantation Info"** was organized by EBSB Cell & IQAC, MVJCE on 08-04-2024.

Date of the Activity	08-04-2024
Category of the Activity	Jal Shakti Abhiyaan
Title of the Activity	Awareness on Plantation in Uttarakhand
Total Number of students participated	55

An awareness program on plantation was conducted in Uttarakhand under the EBSB initiative to promote the importance of afforestation and reforestation. The program aimed to enhance environmental consciousness, prevent soil erosion, and improve water retention through active community and student participation..

Few snapshots of the activity are highlighted as follows.

Presentation on Awareness on Plantation in Uttarakhand

This awareness program on plantation in Uttarakhand offers numerous benefits to engineering students. It enriches their education by providing practical knowledge about the importance of afforestation and reforestation, helping them understand ecological balance and environmental sustainability. Students gain valuable technical skills related to tree planting and soil conservation, which are applicable in their engineering studies and future careers. The program fosters environmental awareness, teaching students the importance of sustainable practices and their role in mitigating climate change.

Participation in community-based plantation activities encourages social responsibility and environmental advocacy. It also provides networking opportunities with environmental experts, government officials, and NGOs, which can lead to internships and collaborative projects. The program helps develop leadership skills and a sense of ethical responsibility towards environmental stewardship.

Additionally, the program inspires innovative thinking and research, motivating students to undertake projects focused on sustainability. The practical experience gained enhances their employability, especially in the field of green engineering and environmental management. Overall, the program prepares engineering students to contribute positively to environmental conservation and equips them with the skills and knowledge necessary for their future careers.

Outcome of the event:

The Ek Bharat Shreshth Bharat initiative inspires our students to embrace unity in diversity. The awareness program on plantation in Uttarakhand had many positive outcomes for engineering students. It improved their understanding of environmental sustainability and the importance of planting trees. Students skills in tree planting and soil conservation, which they can use in their studies and careers. The program encouraged social responsibility and environmental advocacy, motivating students to engage in community conservation activities. Additionally, the event inspired students to start their own sustainability projects. Overall, the program prepared students to contribute to environmental conservation and equipped them with valuable skills and knowledge for their future careers in green engineering and environmental management.
