Report about Session on
“Emerging Trends in Artificial Intelligence”

One-day Session on ‘**Emerging Trends in Artificial Intelligence**’ was organized by the ECE and IIOT Department on 15th May 2024. The Session received an overwhelming response, with 250 participants of different departments.

ABOUT THE SESSION

The session started at 10.00 AM with 250 participants including students from various departments of MVJCE. The session focussed on the state-of-art concepts of Artificial Intelligence.

Session (15.05.2024): Inauguration Ceremony and FN Session

The session began with Ms Sowmya N, 4th Sem ECE student welcoming the guest and gathering. The chief guest of the session was Dr Suresh Sundaram, Professor, Control & Guidance, IISC, Bangalore. Ms Sowmya N, 4th Sem ECE student welcomed the guest Dr Suresh Sundaram and Dr Shrinivas L. Gombi, Dean Academics, MVJCE on dais. Ms. Sudeeksha R, 4th Sem ECE student introduced the chief guest. As a token of appreciation, bouquet was presented to chief guest by Dr. Shrinivas L. Gombi, Dean Academics, MVJCE. Followed by the introduction the session was continued by the chief guest. The topic of discussion was Emerging Trends in Artificial Intelligence. Dr Suresh Sundaram, Professor, Control & Guidance, IISC, Bangalore briefed about the evolution of various ML techniques and developments in AI. Dr Suresh Sundaram connected very well with the audience.

It was a great motivation where the participants could get the awareness on trending essential technologies of AI. Overall, the session gained a great response of participants where they were motivated to come with their own ideas to step forward in near future.

Inaugural Session: Ms Sowmya N & Sudeeksha R 4th sem ECE student welcoming the guest and the participants.
