

1 SEMESTER													
Sl. No.	Course Type	Course Code	Course Title	Teaching Hours per Week				Examination				Credits	
				Theory	Practical/ Seminar	Tutorial/SDA	Duration in hours	CIE Marks	SEE Marks	Total Marks			
1	PCC	MVJLAT11	Random Process and Probability Theory	L	P	T/SDA							
2	IPCC	MVJLAT12	Digital Signal Processing for Communication	3	0	0	03	50	50	100	3		
3	PCC	MVJLAT13	Advanced Communication Systems	3	2	0	03	50	50	100	4		
4	PEC	MVJLAT14X	Professional Elective I	3	0	0	03	50	50	100	3		
5	PEC	MVJLAT15X	Professional Elective II	3	0	0	03	50	50	100	3		
6	PECL	MVJLATL16X	Lab Elective	0	4	0	03	50	50	100	2		
7	NCMC	MVJRM117	Research Methodology and IPR (Online)	Online Courses (online.vtu.ac.in)					300	300	600	18	PP
Professional Elective I													
MVJLAT141	Advanced Machine Learning and Deep Learning			MVJLAT151	Advanced Embedded Systems			Professional Elective II					
MVJLAT142	Advanced Computer Networking			MVJLAT152	Advanced Wireless Communication								
MVJLAT143	Advanced Engineering Electromagnetics			MVJLAT153	Multimedia & Applications								
MVJLAT144	Power Converters			MVJLAT154	Process Control								
Lab Elective													
MVJLATL161	Advanced Communication Lab			MVJLATL162 Electronics and Communication Lab									
<p>Note: BSC-Basic Science Courses, PCC: Professional core, IPCC- Integrated Professional Core Courses, PCC(PB): Professional Core Courses (Project Based), PCCL-Professional Core Course lab, NCMC- None Credit Mandatory Course, L-Lecture, P-Practical, T/SDA-Tutorial / Skill Development Activities(Hours are for Interaction between faculty and students) MRM1107 - Research Methodology and IPR (Online) for the students who have not studied this course in the Undergraduate level. This course is not counted for vertical progression, Students have to qualify for the award of the master's degree.</p> <p>M- Master program xx – ME for Mechanical Engineering Stream, CV for Civil Engineering Stream, EE – Electrical & Electronics Engineering Stream, EC- Electronics and Communication Engineering Stream, CS- Computer Science and Engineering, BA- Business Administration AR- Architecture- etc.</p> <p>BSC: Basic Science Courses: Courses like Mathematics/ Science are the prerequisite courses that the concerned engineering stream board of Studies will decide. PCC: Professional Core Course: Courses related to the stream of engineering, which will have both CIE and SEE components, students have to qualify in the course for the award of the degree.</p>													

Integrated Professional Core Course (IPCC): Refers to a Professional Theory Core Course Integrated with practicals of the same course. The IPCC's theory part shall be evaluated by CIE and SEE. The practical part shall be evaluated by only CIE (no SEE). However, questions from the practical part of IPCC shall be included in the SEE question paper. **Project Based Learning Course (PCC(PB)):** Project Based Learning course is a professional core Course only Students have to complete a project out of learning from the course and SEE will be viva voce on project work. **PCCL: Professional Core Course Laboratory:** Practical courses whose CIE will be evaluated by the class teacher and SEE will be evaluated by the two examiners.

Skill development activities: Under Skill development activities in a concerning course, the students should

1. Interact with industry (small, medium, and large).
2. Involve in research/testing/projects to understand their problems and help creative and innovative methods to solve the problem.
3. Involve in case studies and field visits/ fieldwork.
4. Accustom to the use of standards/codes etc., to narrow the gap between academia and industry.
5. Handle advanced instruments to enhance technical talent.
6. Gain confidence in the modelling of systems and algorithms for transient and steady-state operations, thermal study, etc.
7. Work on different software/s (tools) to simulate, analyze and authenticate the output to interpret and conclude.

All activities should enhance student's abilities to employment and/or self-employment opportunities, management skills, Statistical analysis, fiscal expertise, etc. Students and the course instructor/s are to be involved either individually or in groups to interact together to enhance the learning and application skills of the study they have undertaken. The students with the help of the course teacher can take up relevant technical –activities that will enhance their skills. The prepared report shall be evaluated for CIE marks.

MRM107 - Research Methodology and IPR- None Credit Mandatory Course (NMC) if students have not studied this course in their undergraduate program then he /she has to take this course at <http://online.vtu.ac.in> and to qualify for this course is compulsory before completion of the minimum duration of the program (Two years), however, this course will not be considered for vertical progression.
