

Activity Report on

World Paper Bag Day at MVJ College of

Engineering

Introduction

The Paper Bag Day event was organized at MVJ College of Engineering to promote environmental awareness and the use of eco-friendly alternatives to plastic bags. This event was a collaborative effort involving 20 cadets from the college's National Cadet Corps (NCC) unit.

Objectives

The main objectives of the event were:

- To educate students about the environmental impacts of plastic pollution.
- To encourage the use of paper bags as a sustainable alternative.
- To involve students in practical activities that highlight the benefits of recycling and waste reduction.

Event Details

Date and Time

- **Date:** 12.07.2024
- **Time:** 4PM

Venue

- MVJ College of Engineering Campus

Participants

- 20 NCC cadets
- Students from various departments

Activities

Awareness Session

The event began with an awareness session where guest speakers, including environmentalists and faculty members, discussed the adverse effects of plastic pollution on the environment. They highlighted the importance of using biodegradable materials and

shared information on how small changes, like using paper bags, can make a significant difference.

Distribution of Paper Bags

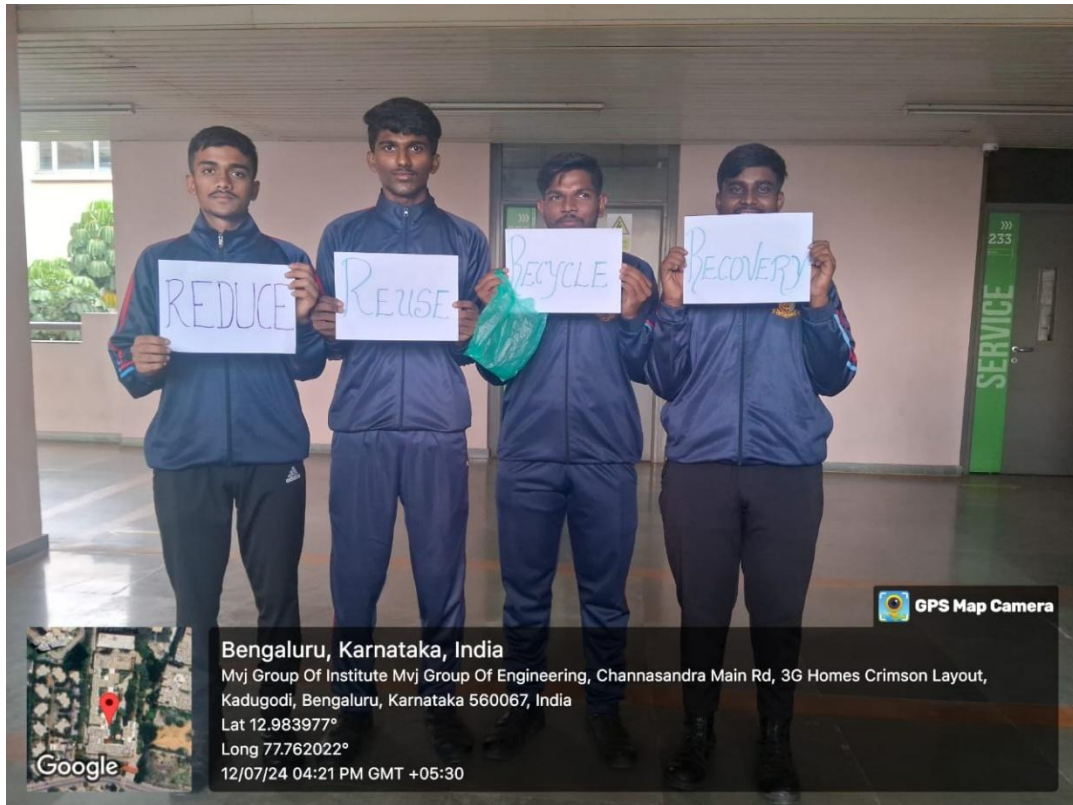

The cadets distributed the paper bags they made to students and faculty around the campus. This activity aimed to reinforce the message of the day and provide practical tools for reducing plastic use.

Pledge Ceremony

A pledge ceremony was conducted where participants committed to reducing their plastic consumption and promoting eco-friendly practices in their daily lives. The pledge highlighted the collective responsibility of the college community in protecting the environment.

Outcome and Impact

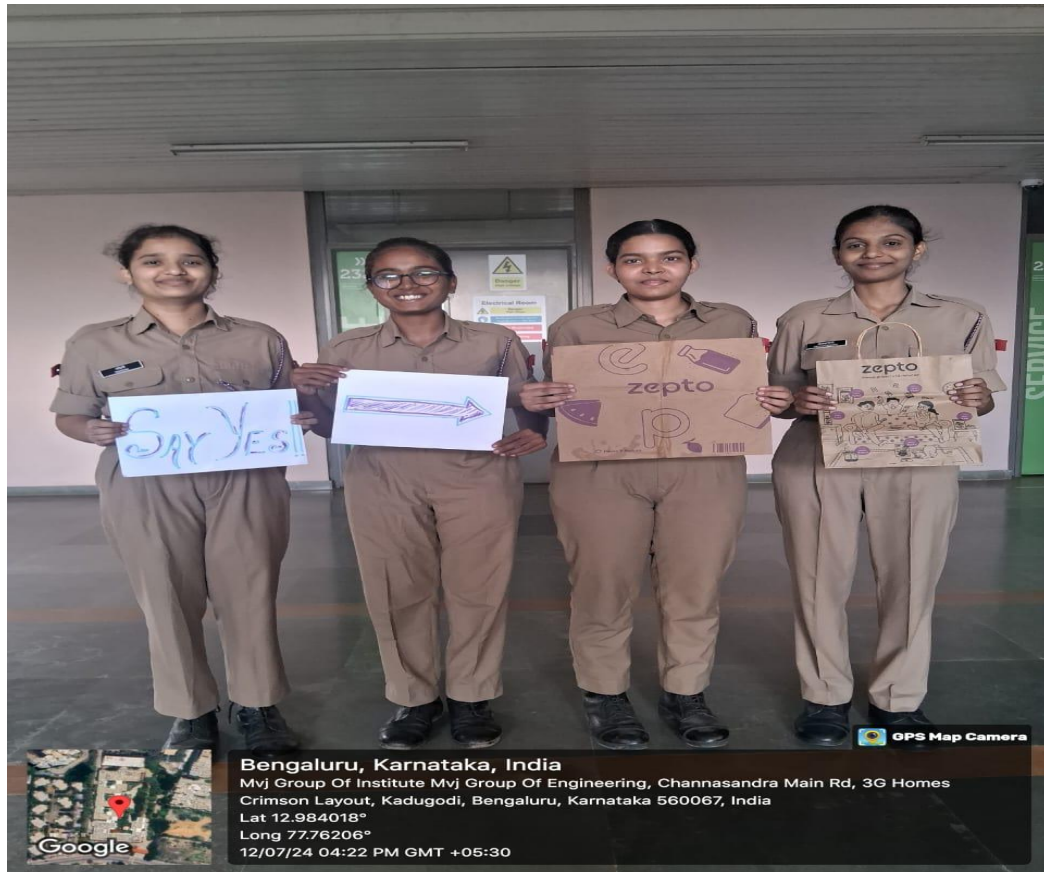

- The event successfully raised awareness among the college community about the importance of reducing plastic use.
- Participants learned practical skills for making paper bags, which they can use and teach others.
- The distribution of paper bags served as a tangible reminder of the day's message.
- The pledge ceremony reinforced the commitment to environmental sustainability.

Conclusion

Paper Bag Day at MVJ College of Engineering was a resounding success, thanks to the enthusiasm and dedication of the 20 NCC cadets and the active participation of the college community. The event not only educated attendees about the environmental impacts of plastic but also empowered them to make a change. By fostering a culture of sustainability, MVJ College of Engineering is taking significant steps toward a greener future.
